

STRAVOS

Tomorrow's Missions, Today

Who We Are

Stravos (SDVOSB) was created for a new kind of mission, where intelligence moves faster than bureaucracy, and results speak louder than rhetoric.

We believe the systems that defend, connect, and sustain the world should evolve as quickly as the challenges they face. Stravos exists to make that evolution real, turning data into foresight, complexity into momentum, and missions into measurable outcomes.

Guided by our vision, we engineer clarity from chaos and performance from potential. Every engagement is a launchpad, an opportunity to deliver more than expected, in ways no one else saw coming.

We don't just solve problems. We accelerate what's possible.

Core Competencies

AI & Data-Driven Solutions

Transforming data into foresight and intelligent action for faster, smarter mission decisions

Digital Sustainment & Lifecycle Logistics

Modernizing maintenance and supply support to sustain readiness and extend asset life

IT & Enterprise System Modernization

Re-engineering legacy systems into secure, scalable, and mission-ready digital environments

Infrastructure & Mission Readiness

Building and optimizing resilient facilities and systems that keep operations mission-ready

Program & Advisory Services

Integrating strategy, technology, and execution to deliver measurable mission impact

Vision

To ignite a new era of mission performance, launching purposeful collaborations, intelligent innovation, and bold decisions that keep our nation, and those who serve it, always ahead

Mission

We deliver innovative solutions that unite technology, sustainment, and strategy, accelerating outcomes, advancing readiness, and transforming how missions are accomplished. Partnering with defense, federal, and state organizations, Stravos turns complexity into clarity, data into decisions, and potential into performance

Guiding Principles

- **Purpose with Precision** – *Every engagement is designed to achieve measurable impact and enduring value*
- **Engineer Trust** – *We do what's right and deliver what we promise, every time*
- **Collaborate Relentlessly** – *No silos. No egos. Just shared momentum toward what's next*
- **Innovate Fearlessly** – *Challenge assumptions and transform bold ideas into trusted results*
- **Deliver the Extraordinary** – *Success means surpassing expectations and expanding what's possible*

STRAVOS

Tomorrow's Missions, Today

Capabilities & Solutions

AI & Data-Driven Solutions

- Artificial Intelligence / Machine Learning Engineering
- Predictive Analytics & Decision Support Systems
- Data Engineering, Integration & Visualization
- AI Assurance, Model Validation & Governance

Digital Sustainment & Lifecycle Logistics

- Maintenance, Repair & Overhaul (MRO) Optimization
- Supply Support & Lifecycle Logistics
- Condition-Based Maintenance / Predictive Analytics
- Sustainment Engineering & Readiness Modeling

IT & Enterprise System Modernization

- System & Infrastructure Modernization
- DevSecOps & CI/CD Integration
- System Architecture & Enterprise Integration
- CMMC Compliance

Infrastructure & Mission Readiness

- Facility & Systems Modernization Planning
- Energy Resilience & Environmental Compliance
- Mission-Critical Infrastructure Engineering
- Operational Readiness Assessments & Optimization

Program & Advisory Services

- Program & Portfolio Management / PMO Support
- Acquisition & Contract Strategy Advisory
- Process Re-engineering / Change Management
- Financial & Performance Analytics

NAICS Codes

541511 Custom Computer Programming Services

541512 Computer Systems Design Services

541611 Administrative Management and General Management Consulting Services

541614 Process, Physical Distribution, and Logistics Consulting Services

541715 Research and Development in the Physical, Engineering, and Life Sciences

541330 Engineering Services

Key Differentiators

Partnership as Performance

We embed within your mission - collaborative, agile, and accountable to every outcome

Modernization Without Compromise

We deliver innovation with intent, accelerating transformation while protecting mission assurance, compliance, and trust

Sustainment as a Digital Discipline

We fuse AI, engineering, and logistics to extend asset life, cut cost, and sustain readiness

Intelligent Systems - Measurable Impact

We turn data into foresight and decisions into results, engineering clarity from complexity

Veteran Led Precision - Mission Built Results

Rooted in service, disciplined by experience, we deliver with integrity, urgency, and impact
